## welcome to stavanger and scandinavian update 2005

It is an honour and pleasure to welcome you to the first Scandinavian Update on trauma, resuscitation and emergency medicine in Stavanger. On behalf of the Scientific- and Organizing Committees we will welcome you to join us and meet your colleagues as well as the experts in your field of interest.

The Formula of Survival<sup>1</sup> highlights the importance of medical science, educational efficiency and local organization, individual and mutual, for survival of our patients. Scandinavian Update on trauma, resuscitation and emergency medicine will focus on the Formula of Survival and aim to become the meeting point for all Scandinavian doctors, nurses and paramedics involved in life saving activities inside and outside the hospital.

In the good spirit of TraumaCare 2002 Scandinavia, the SCANTEM (Scandinavian Networking Group on Trauma and Emergency Management) was established and held its first meeting in Gothenburg in 2004. Scandinavian Update 2005 will be the second SCANTEM-meeting.

We have made the program highly interactive. Besides keynote lectures, there will be pro-con debates, round-table discussions, hands-on workshops, learning centres, and stand-up science. There will be special symposiums on important topics like prehospital airway management, critical bleeding and therapeutic hypothermia. Along with you, there is a good mixture of international and Scandinavian guests in the multi-speciality faculty.

The conference venue is the Clarion Hotel Stavanger, close to the inner harbour in the charming city centre of Stavanger, not far from the famous Lysefjorden and Preikestolen/The Pulpit Rock.

Meet, have fun, share ideas, and look into the future of trauma, resuscitation and emergency medicine.

### Welcome to Scandinavian Update 2005!

Eldar Søreide  
Chairman Scientific Committee

Hans Morten Lossius  
Chairman Organizing Committee

## faculty

Anette Bore, Norway  
Maaret Castrén, Finland  
Erika F. Christensen, Denmark  
Gareth Davies, United Kingdom  
Richard Dutton, USA  
Bente Lüdemann Elstad, Norway  
Tina Gaarder, Norway  
Harald V. Genzwuerker, Germany  
Lauri Handolin, Finland  
Sven Arne Hapnes, Norway  
Jon-Kenneth Heltné, Norway  
Tom Erik Bull Karlsen, Norway

Anders Kroken, Norway  
Asgeir Kvam, Norway  
Audun Langhelle, Norway  
Ole Christian Langlo, Norway  
Alf Inge Larsen, Norway  
Jens Flensted Lassen, Denmark  
Ari Leppäniemi, Finland  
Anne Lippert, Denmark  
Freddy Lippert, Denmark  
David Lockey, United Kingdom  
Pia Malmquist, Sweden  
Sindre Mellesmo, Norway

Jannicke Mellin-Olsen, Norway  
Alma D. Möller, Iceland  
Niklas Nielsen, Sweden  
Jan Erik Nilsen, Norway  
Thomas Olsson, Sweden  
Kees H. Polderman, The Netherlands  
Stein Atle Puntervoll, Norway  
Olav Røise, Norway  
Mårten Sandberg, Norway  
Birgit Schober, Norway  
Tom Silfvast, Finland  
Stephen J. M. Sollid, Norway

Kjetil Sunde, Norway  
Karl Thies, The Netherlands  
Øyvind Thomassen, Norway  
Else Tønnesen, Denmark  
Anna Tötterman, Norway  
Thore Wickström, Sweden  
Torben Wisborg, Norway  
Per Örtenwall, Sweden  
Anders Östlund, Sweden  
Marit Qvam, Norway

## pre conference symposiums

September 7 2005

SCANTEM work-group on guidelines on massive bleeding in trauma

September 7 2005

SCANTEM work-group on Scandinavian trauma registry - Scandinavian major trauma outcome study

September 7 2005

Faculty meeting and upgrade course for faculty members of ATLS®-Norway, and APLS®-Norway  
Arranged by: The Norwegian Air Ambulance Foundation. For more information, see: [www.ATLS.no](http://www.ATLS.no)

## preliminary conference programme

More to come, please check our web site [www.scandinavian-update.org](http://www.scandinavian-update.org) for details

### thursday

september 8

1000 - 1200

#### SESSION 1 Keynote-lectures

Maaret Castrén, Finland

Recent developments in Scandinavian trauma care, resuscitation and emergency medicine – what has changed?

Harald V. Genzwuerker, Germany

The new role of supraglottic airway devices in trauma, resuscitation and emergency medicine – will it affect my clinical practice?

Kees H. Polderman, The Netherlands

Therapeutic hypothermia in trauma and resuscitation – a therapy that works!

Anna Tötterman, Norway

Are Trauma patients still bleeding to death? If so, how come?

1200 - 1330 Exhibition - Lunch

1330 - 1500

#### SESSION 2A

Emergency cardiac care – an update.

Moderators: Alf Inge Larsen, Norway and  
Jens Flensted Lassen, Denmark

#### SESSION 2B

The bleeding trauma patient – new Scandinavian guidelines?

Moderators: Per Örténwall, Sweden and  
Tina Gaarder, Norway

1500 - 1530 Exhibition - Coffee-break

1530 - 1730

#### SESSION 3A

Trauma care and resuscitation under extreme conditions.

When the going gets tough, the tough gets going?

Moderators: Torben Wisborg, Norway and  
Tom Silfvast, Finland

#### SESSION 3B

Emergency medicine and resuscitation – pitfalls and pearls.

Moderators: Freddy Lippert, Denmark and  
Anders Östlund, Sweden

1830

“Karibu - Come and meet all your friends”

Welcome-reception in Stavanger Hall, at the Conference Hotell, Clarion. Scandinavian Update awards.

0830 - 1030	<b>SESSION 4A</b> Education in trauma and emergency medicine – why simulation save lives. Moderators: Anne Lippert, Denmark and Jannicke Mellin-Olsen, Norway	<b>SESSION 4B</b> Prehospital emergency care – paramedics only, or? Moderators: Jan Erik Nilsen, Norway and Maaret Castrén, Finland
1030 - 1100	Exhibition - Coffee-break	
1100 - 1200	<b>SESSION 5A</b> Recent controversies in trauma and emergency medicine. Moderators: Eldar Søreide, Norway and Maaret Castrén, Finland	<b>SESSION 5B</b> Resuscitation guidelines in 2010 – will everything be different then? Moderators: Kjetil Sunde, Norway and Tom Silfvast, Finland
1200 - 1330	Exhibition - Lunch	
1330 - 1500	<b>SESSION 6A</b> The future of emergency departments in Scandinavia – better TRIAGE and a new speciality? Moderators: Thomas Olsson, Sweden and Pia Malmquist, Sweden	<b>SESSION 6B</b> The trauma team and survival – what are the crucial factors? Moderators: Anna Tötterman, Norway and Lauri Handolin, Finland
1500 - 1530	Exhibition - Coffee-break	
1530 - 1730	<b>SESSION 7A</b> Emergency airway management – pitfalls and pearls Moderators: Harald V. Genzwuerker, Germany and Eldar Søreide, Norway	<b>SESSION 7B</b> The East-Asian tsunami disaster and the aftermath. A well organized medevac or random action? Moderators: Jan Erik Nilsen, Norway and Ari Leppäniemi, Finland Thore Wickström, Sweden
1900	<b>Stand-up Science</b> Arkivet - the meeting point for free paper presentations.	

0830 - 1030	<b>SESSION 8A</b> The link between in-hospital factors and survival in resuscitation and trauma – do we have the answers? Moderators: Kees H. Polderman, The Netherlands and Kjetil Sunde, Norway	<b>SESSION 8B</b> The hostile environment - how to protect yourself while taking care of the patient? Moderators: Freddy Lippert, Denmark and David Lockey, United Kingdom
1030 - 1100	Exhibition - Coffee-break	
1100 - 1200	<b>SESSION 9A</b> The implementation of new Life Support courses in Scandinavia – so what? Moderators: Jan Erik Nilsen, Norway and Gareth Davies, United Kingdom	<b>SESSION 9B</b> A Scandinavian major trauma outcome study – time for setting new standards for the organizing of the trauma chain of survival? Moderators: Per Örtenwall, Sweden and Olav Røise, Norway
1200 - 1330	Lunch	

## post conference symposium

September 11-12 2005  
 Utstein kloster

### Emergency Medical Dispatch, the first link in the Chain of Survival

Recommended guidelines for reporting of data from the out-of-hospital phase of medical dispatch for cardiac arrest and telephone-guided CPR

High quality medical dispatch is crucial for survival from cardiac arrest and performance at discharge from hospital. It is time for making medical dispatch as evidence based as possible. One step is uniform reporting Utstein style, tailored for medical dispatch and cardiac arrest.

The aim of this Utstein meeting is to bring together Scandinavian and other European experts in this field to collectively draw up recommendations for reviewing, reporting, and conducting research on medical dispatch.

The results will be published in international journals.

The symposium is supported by grants from the Laerdal Foundation for Acute Medicine.
