

Scandinavian update 2007

on trauma, resuscitation and emergency medicine

stavanger **norway** may **24-26** 2007

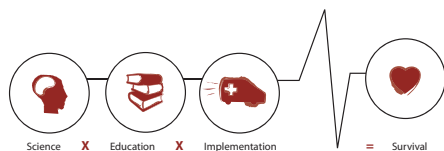

preliminary programme

meet, have fun, share ideas and look into the future of trauma, resuscitation and emergency medicine.

Welcome to Stavanger

Following the success in 2005, it is a pleasure to welcome you back to the 2nd Scandinavian Update on trauma, resuscitation and emergency medicine in Stavanger, May 24-26, 2007. Please join us, meet your colleagues as well as the experts in your field of interest, and help shape the future of trauma care, resuscitation and emergency medicine in Scandinavia.

The Formula of Survival (*Resuscitation* 2003; **59**: 11-43) illustrates how the interaction between medical science, educational efficiency and local organisation does affect patient outcome. Scandinavian Update on trauma, resuscitation and emergency medicine will focus on the Formula of Survival by presenting the newest scientific breakthroughs combined with educational discussions and local implementation issues. We intend to make Scandinavian

Update the mandatory meeting point for all Scandinavian doctors, nurses and paramedics involved with saving lives inside and outside the hospital.

There will be an interactive program with pro-con debates, case presentations and decision-making discussions, interactive voting sessions, round-table discussions, learning centres, Stand-up Science and Meet-the-Faculty Pub. You will find a good mixture of European and Scandinavian guests in the multi-disciplinary faculty.

The conference venue is the Clarion Hotel Stavanger, close to the inner harbour in the charming city centre of Stavanger, not far from the famous Lysefjorden and Preikestolen/The Pulpit Rock.

Don't miss this opportunity to take part in the development of trauma, resuscitation and emergency medicine in Scandinavia.

Welcome to Scandinavian Update 2007!

Eldar Søreide
Chairman Scientific Committee

Hans Morten Lossius
Chairman Organising Committee

Scientific programme

Learning Centres

Micro- and macro simulation
Volume therapy
Persative Computing Concepts and Technology

Scandinavian Update Awards

Stavanger Hall May 24

The following prizes will be awarded during session 1 on Thursday:

- Best Educational Programme
- Best System Implementation
- Best Scientific Paper
- Scandinavian Update Prize of Honour
- Axel Capplen Award for Excellence in Trauma Care and Education

Sponsored by Laerdal Medical

Sponsored by Akuttjournalen - The Scandinavian Journal of Trauma, Resuscitation and Emergency Medicine

Sponsored by Fresenius Kabi

Sponsored by the Norwegian Air Ambulance

Free Papers

Don't miss this opportunity to present your work to the Scandinavian trauma, resuscitation and emergency medicine providers and decision-makers.

The abstracts may be scientific or narrative in nature but must be relevant to either trauma, resuscitation or emergency medicine.

Accepted abstracts will be published in Akuttjournalen - The Scandinavian Journal of Trauma, Resuscitation and Emergency Medicine. The abstracts should be sent to the Scientific committee of the Scandinavian Update on trauma, resuscitation and emergency medicine's email address on www.scandinavian-update.org.

Abstract submission deadline is March 15 2007

For further details, please check our website www.scandinavian-update.org.

SCANTEM* forum for young researchers

The place to network for everyone with an interest in research.

* Scandinavian Networking Group for Trauma and Emergency Management

Stand-up Science

Hall Toll May 25 19.00

On Friday evening the venue will switch to the Conference Pub "Hall Toll" for an informal session with Free Papers presentations. Each presenter will be given just four minutes to outline their research, with nothing more than a flip chart to help them. The participants will range from medical students to senior clinicians. They have to convince a panel of experts and the audience that their research project was worth listening to. You and the expert panel will make sure this becomes an entertaining as well educational evening. The debate will continue well into the evening in the bars and restaurants of Stavanger!

Take the challenge and submit your paper to faculty@scandinavian-update.org

Meet-the-Faculty-Pub

After the Stand-up Science you will be able to meet the faculty to an informal chat in the bar. They will be there to discuss hot topics or to answer your questions.

Pre-conference symposiums

May 21-22

European Trauma Course (Invitation only)

Held at SAFER (Stavanger Acute medicine Foundation for Education and Research)

May 22-23

Utstein Consensus Meeting on trauma registries and trauma education (Invitation only)

Arranged by: Scantem - Scandinavian Networking Group for Trauma and Emergency Management

May 23

Faculty meeting and educational update for faculty members of ATLS®-Norway, and APLS®-Norway

Arranged by: The Norwegian Air Ambulance Foundation.

For more information, see: www.ATLS.no

Preliminary conference programme

This is the preliminary scientific program. Changes may occur both in topics, speakers and scheduled times as the development of the scientific program continues.

Please, check www.scandinavian-update.org for the latest update of the scientific program.

WEDNESDAY	
18.00	Welcome reception. For those of you who arrive on Wednesday; meet us at the Conference Pub Hall Toll downtown to an informal Welcome reception and pre-registration. Grab a beer or discover the nightlife of Stavanger!
THURSDAY	
09.00 - 12.00	1A
	<p>KARIBU: Opening session with awards</p> <p><i>Moderators: Tina Gaarder, Norway and Eldar Søreide, Norway</i></p> <p>Scandinavian update on trauma, resuscitation and emergency medicine 2005-2007 Maaret Castrén, Finland</p> <p>The Scandinavian Update Awards</p> <p>Best Educational Programme Sponsored by Laerdal Medical</p> <p>Best System Implementation</p> <p>Best Scientific Paper Sponsored by Akuttjournalen - The Scandinavian Journal of Trauma, Resuscitation and Emergency Medicine</p> <p>Scandinavian Update Prize of Honour Sponsored by Fresenius Kabi</p> <p>The Axel Cappelen Award for Excellence in Trauma Care and Education Sponsored by the Norwegian Air Ambulance</p> <p>Axel Cappelen - Who was he? Kjetil Søreide, Norway</p> <p>What have we learnt from him? 110 years later Helga Loose, Norway</p> <p>Organised trauma care and education - is there an European perspective? Prize winner Lecture</p>

12.30 - 14.00	Lunch		
14.00 - 15.00	2A - PART 1	2B - PART 1	2C - PART 1
	<p>The bleeding trauma patient – does “he” continue to bleed or have we become much better during the last 5 years?</p> <p>Moderators: Anders Östlund, Sweden Tim Coats, United Kingdom</p> <p>An international view, including the CRASH2 trial. Tim Coats, United Kingdom</p> <p>Critical bleeding - the Swedish experience. Anders Östlund, Sweden</p> <p>Critical bleeding - the Finnish experience. Pertti Hakala, Finland</p>	<p>Emergency medicine in Scandinavia – an update on recent developments and controversies.</p> <p>Moderators: Bosse Erwander, Sweden Eldar Søreide, Norway</p> <p>Emergency medicine - a new speciality in Scandinavia. Jacob Lundager Forberg, Sweden</p> <p>Emergency medicine in Scandinavia - should anaesthesiologist still be involved? Freddy Lippert, Denmark</p> <p>Specialty training in emergency medicine: The Icelandic perspective. Jón Baldursson, Iceland</p>	<p>Airway management in emergencies.</p> <p>Moderators: Charles Deakin, United Kingdom Jouni Kuroola, Finland</p> <p>Pre-hospital airway management: Why all the controversy? David Lockett, United Kingdom</p> <p>The new Scandinavian guidelines for prehospital airway management. Jouni Kuroola, Finland</p> <p>A critical view at the same guidelines. Volker Dörge, Germany</p>
15.00 - 15.30	Coffee-break		
15.30 - 17.30	2A - PART 2	2B - PART 2	2C - PART 2
	<p>Has there been a shift in the surgical approach? -The operative management view. Lauri Handolin, Finland</p> <p>Has there been a shift in the surgical approach? -The non-operative management view. Pål Aksel Næss, Norway</p> <p>The role of the new Scandinavian Guidelines? Tina Gaarder, Norway</p> <p>Novel agents for haemostasis – not so novel anymore, but still interesting? Pro-Con. Tina Gaarder, Norway Karim Brohi, United Kingdom</p> <p>Interactive case discussion. Tina Gaarder, Norway Pål Aksel Næss, Norway</p>	<p>Physicians in the prehospital setting - not only a matter of ALS vs BLS, but also quality of triage and decision-making? Poul Kongstad, Sweden</p> <p>Clinical decision units and triage in the Emergency Department. Sindre Mellesmo, Norway</p> <p>Why are patient triage tools so important, and which one should we use? Sven Lethvall, Sweden</p> <p>An update on ultrasound and CAT scan for the non-experts: how to make best use of it in emergencies. Otto Chan, United Kingdom</p> <p>The development of the UK emergency medicine system - something the rest of us can learn from? Peter Driscoll, United Kingdom</p> <p>Emergency medicine in Europe - recent developments. Bosse Erwander, Sweden</p>	<p>Advanced airway management and use of capnography as examples of educational efficiency and local implementation. Jon-Kenneth Heltne, Norway</p> <p>Airway management in trauma patients with a smashed face is a real challenge! The ENT surgeon's view. Lynn Biserød, Norway</p> <p>Airway management in trauma patients with a smashed face is a real challenge! The anaesthesiologist's view. David Lockett, United Kingdom</p> <p>Old and new airway gadgets - are they really helpful and do we know how to use them? Volker Dörge, Germany</p> <p>Rapid sequence induction intubation outside the OR - is it clear cut? Is my way as good as your way of doing it? Anders Östlund, Sweden Nils Oddvar Skaga, Norway</p> <p>Airway management in emergencies - still room for improvement? PANEL DISCUSSION</p>
18.30 - 23.00	<p>Get Together Party. The Scandinavian Update will this year take you on a boat trip to one of the most popular places in the county of Rogaland, the 'Sjernerøyane' (Star Islands). The idyllic Sjernerøy is one island in the island groups that makes out the country borough of Finnøy and it is located only an hour from Stavanger. This evening the Sjernerøy Maritim restaurant will serve you a buffet where you will have the opportunity to enjoy every conservable delicacy from the sea and refreshment drinks.</p> <p>The Sjernerøy Island has its one 9-hole golf course situated in very picturesque surroundings. It is a perfect opportunity to challenge a colleague or improve your hole-in-one. The golf course is fitted in an old pare garden with a magnificent view of the fjord. An experience to be remembered. Join us and your colleague and friends on this evening.</p>		

FRIDAY			
09.00 - 10.30	3A - PART 1	3B - PART 1	3C - PART 1
	<p>Resuscitation – an update on recent developments and controversies. Interactive session with case discussions and voting</p> <p>Moderators: David Zideman, United Kingdom Tom Silfvast, Finland</p> <p>Compression machines in cardiac arrest - the end of a short story or just the beginning of a new era? What's your opinion? Christer Axelsson, Sweden</p> <p>Postresuscitation care: 1986 vs. 2006. How much better are we? Jouni Kurola, Finland</p> <p>Near-drowning and accidental hypothermia - current guidelines need urgent improvement. Joost JLM Bierens, The Netherlands</p> <p>When is the trauma patient really dead and beyond saving, and when not? Real cases from the streets of London. Gareth Davies, United Kingdom</p>	<p>Trauma registries – a lot of fun or just endless work? In co-operation with: Norwegian Air Ambulance Foundation</p>  <p>Moderators: Olav Røise, Norway Per Örtenwall, Sweden</p> <p>The Norwegian Ullevål registry – what have we learnt so far? And, what can others learn from it? Nils Oddvar Skaga, Norway</p> <p>The Helsinki trauma outcome study 2005. Lauri Handolin, Finland</p> <p>The First Italian Trauma Registry: methodology and initial results. Stephano di Bartolomeo, Italy</p> <p>The UK trauma registries – do we still need them? Tim Coats, United Kingdom</p>	<p>Free Papers</p>
10.30 - 11.00	Coffee-break		
11.00 - 12.30	3A - PART 2	3B - PART 2	3C - PART 2
	<p>The new ERC guidelines on resuscitation will save more lives and brains in neonates: fact or fiction? Bjørn Øglænd, Norway</p> <p>The new ERC guidelines on resuscitation will save more lives and brains in children: fact or fiction? Ffion Davies, United Kingdom</p> <p>Cardiopulmonary resuscitation research - hot topics. Charles Deakin, United Kingdom</p> <p>What new can the 2010 international guidelines on resuscitation and emergency cardiac care bring? David Zideman, United Kingdom</p>	<p>EuroTARN - an update. Antoinette Edwards, United Kingdom</p> <p>Trauma scoring and survival analysis - raise and fall of the TRISS methodology - will Europe be in the lead of the revision process? Fiona Lecky, United Kingdom</p> <p>Trauma outcome - more than just survival! Ernestina Gomes, Portugal</p> <p>The Scandinavian Major Trauma Outcome Study - an update. Kjetil Ringdal, Norway</p>	<p>Free Papers</p>
12.30 - 14.00	Lunch		

14.00 - 15.00	4A - PART 1	4B - PART 1	4C - PART 1
	<p>From science to survival – the essential roles of educational efficiency and local implementation to improve outcome. An interactive session around specific questions.</p> <p>Moderators: Anne Lippert, Denmark Eldar Søreide, Norway</p> <p>From best practice to best education: where are we now and where should we be heading? Anne Lippert, Denmark</p> <p>Best education in trauma, resuscitation and emergency care - an international perspective. Jannicke Mellin-Olsen, Norway</p> <p>Resuscitation research in Sweden – lessons learned about educational efficiency and local implementation. Åsa Axelsson, Sweden</p>	<p>Air ambulance services – cool guys, fancy toys, but also more? In co-operation with: Norwegian Air Ambulance Foundation</p>  <p>Moderators: Jan Erik Nilsen, Norway Gareth Davies, United Kingdom</p> <p>Air ambulance services - do they really make any difference? Hans Morten Lossius, Norway</p> <p>15 years with Helicopter Emergency Medical Services (HEMS) in Southern Finland - lessons learned. Tom Silfvast, Finland</p> <p>HEMS worldwide - a view from both down-under and up north! Are we able to learn anything from each other? Per Bredmose, Denmark</p>	<p>Free Papers</p>
15.00 - 15.30 Coffee-break			
15.30 - 17.30	4A - PART 2	4B - PART 2	4C - PART 2
	<p>"Just push on the chest while I do the important stuff" - time to change focus to good quality chest compressions. Jo Kramer-Johansen, Norway</p> <p>Advanced airway management – how to secure the right persons get the right training in the right things in the right patients? Jouni Kurola, Finland</p> <p>Therapeutic hypothermia – a good example to illustrate the "Formula of Survival" concept. Kjetil Sunde, Norway</p> <p>When trying to save more lives, do we need to pay more attention to "first, do no harm"? An update on patient safety. Guttorm Bratlebø, Norway</p> <p>If correct and timely CPR is so important, how do we make sure lay people and health professionals learn it, remember it and use it? Jo Kramer-Johansen, Norway</p> <p>Is the Formula of Survival a valid concept? PANEL DISCUSSION</p>	<p>When nurses man the Swedish rapid response cars, why can't they replace the physician in the air ambulance service? Christer Axelsson, Sweden</p> <p>Implementing a national air ambulance service in Denmark - why? Erika Christensen, Denmark</p> <p>Trying to establish a new air ambulance service. Experiences from the UK Charles Deakin, United Kingdom</p> <p>After 20 years of a national air ambulance service in Norway - time to discuss the future? Sindre Mellesmo, Norway</p> <p>Surgical procedures by non-surgeons in HEMS - how to secure quality of care and patient safety Gareth Davies, United Kingdom</p> <p>Rural vs urban HEMS - different concepts, different results? Audun Langhelle, Norway</p>	<p>Free Papers</p>
19.00	<p>Stand-up Science - an informal session with Free Papers presentations. Each presenter will be given just four minutes to outline their research, with nothing more than a flip chart to help them. The participants will range from medical students to senior clinicians. They have to convince a panel of experts and the audience that their research project was worth listening to. You and the expert panel will make sure this becomes an entertaining as well educational evening. The debate will continue well into the evening in the bars and restaurants of Stavanger!</p> <p>Meet-the-Faculty-Pub - after the Stand-up Science you will be able to meet the faculty to an informal chat in the bar. They will be there to discuss hot topics or to answer your questions.</p>		

SATURDAY

09.00 - 10.30

5A

Recent controversies and unsolved issues in trauma care.

Moderators: Lauri Handolin, Finland
Tina Gaarder, Norway

Optimal management of orthopedic injuries - still controversial?
Olav Røise, Norway

Turning ABC into CABG - time to upgrade from the time of Marie Curie.
Otto Chan, United Kingdom

The new National Trauma System in Norway - a model for other Scandinavian countries?
Olav Røise, Norway

Trimodal distribution of trauma deaths - fact or fiction?
Kjetil Søreide, Norway

5B

Recent controversies and unsolved issues in disaster medicine and emergency care.

In co-operation with:
Norwegian Association for Disaster and Emergency Medicine

Moderators: Jan Erik Nilsen, Norway
Per Örtenwall, Sweden
Hans Morten Lossius, Norway

Tips and tricks to start research in emergency and disaster medicine.
Joost JLM Bierens, The Netherlands

Chemical and biological incidents in Scandinavia - medical and organisational implications.
Steen K. Barnung, Denmark

Alarm- and dispatch-centers in Scandinavia - different organisation, different staffing, but the same quality?
Freddy Lippert, Denmark

Organising and running the hospital and pre-hospital EMS system - the UK point of view.
Tim Coats, United Kingdom

5C - PART 1

Patient safety - first do no harm.

Moderators: Jannicke Mellin-Olsen, Norway
Eldar Søreide, Norway

If clinical practice guidelines improve quality of care and patient safety - why do we ignore them?
Eldar Søreide, Norway

Traumatic brain injury -first do no harm! But how?
Ernestina Gomes, Portugal

The ICU - a safe place to be?
Pertti Hakala, Finland

Unresolved quality and safety issues in trauma, resuscitation and emergency medicine - what are they?
PANEL DISCUSSION

10.30 - 11.00

Coffee-break

11.00 - 13.00

6A

Trauma Education: Can we reach consensus in the Scandinavian countries?

In co-operation with: Norwegian Air Ambulance Foundation

Moderators: Olav Røise, Norway
Freddy Lippert, Denmark
Jan Erik Nilsen, Norway

ATLS
Per Örtenwall, Sweden

PHTLS
Sindre Mellesmo, Norway

ETC
Carl Gwinutt, United Kingdom
Ernestina Gomes, Portugal

BEST
Torben Wisborg, Norway

DSTC and national courses like the Norwegian War Surgery Course
Tina Gaarder, Norway Pål Aksel Næss, Norway

PANEL DISCUSSION

6B

How to organise and secure quality in prehospital care? Staffing, use of physicians, protocols, decision-making, successes and pitfalls

In co-operation with: Norwegian Air Ambulance Foundation

Moderators: Maaret Castrén, Finland
Hans Morten Lossius, Norway

Århus, Denmark
Erika Christensen, Denmark

Lund, Sweden
Poul Kongstad, Sweden

Bergen, Norway
Jon-Kenneth Heltne, Norway

Copenhagen, Denmark
Søren Loumann Nielsen, Denmark

Kiel, Germany
Volker Dörge, Germany

PANEL DISCUSSION

5C - PART 2

Patient safety - first do no harm

Moderators: Jannicke Mellin-Olsen, Norway
Eldar Søreide, Norway

The role of continuous education and work place issues in patient safety
Jannicke Mellin-Olsen, Norway

Patient safety and simulation based training - have we really understood the full potential of these new words?
Anne Lippert, Denmark

Simulation centers - what they offer and not.
Stephen Sollid, Norway

Patient care and patient safety - how I see it.
Åsa Axelsson, Sweden

How to make prehospital care safer?
Christer Axelsson, Sweden

Where do we go from here? Will things improve before we meet 2 years from now?
PANEL DISCUSSION

Faculty

Will be continuously updated, check our web site for details and CVs

Social programme

Hall Toll - The Conference Pub!

Hall Toll is a restaurant, bar and night club with good food and fun atmosphere. Hall Toll is located beside the sea in the old customs ("Toll") building, at the edge of the inner harbour ("Vågen"). The Blue Promenade path passes by outside.

Wednesday May 23

For those of you who arrive on Wednesday; meet us at the Conference Pub **Hall Toll** downtown to an informal **Welcome Reception** and pre-registration. Grab a beer or discover the nightlife of Stavanger!

Thursday May 24

Get Together Party The Scandinavian Update will this year take you on a boat trip to one of the most popular places in the county of Rogaland, the 'Sjernerøyane' (Star Islands). The idyllic Sjernerøy is one island in the island groups that makes out the country borough of Finnøy and it is located only an hour from Stavanger. This evening the Sjernerøy Maritim restaurant will serve you a buffet where you will have the opportunity to enjoy every conservable delicacy from the sea and refreshment drinks.

The Sjernerøy Island has its one 9-hole golf course situated in very picturesque surroundings. It is a perfect opportunity to challenge a colleague or improve your hole-in-one. The golf course is fitted in an old park garden with a magnificent view of the fjord. An experience to be remembered. Join us and your colleagues and friends on this evening. Sign on when registration.

Friday May 25

Stand-up Science is an informal session with Free Papers presentations. Each presenter will be given just four minutes to outline their research, with nothing more than a flip chart to help them. The participants will range from medical students to senior clinicians. They have to convince a panel of experts and the audience that their research project was worth listening to. You and the expert panel will make sure this becomes an entertaining as well educational evening. The debate will continue well into the evening in the bars and restaurants of Stavanger!

Friday May 25

Meet-the-Faculty-Pub - after the Stand-up Science you will be able to meet the faculty to an informal chat in the bar. They will be there to discuss hot topics or to answer your questions.

How to get to Stavanger

Air Stavanger Airport has daily direct connections to Amsterdam, Aberdeen, Copenhagen, Frankfurt, London, Newcastle and Oslo.

Train Norwegian State Railways from Oslo along the coast in modern tilt trains. www.nsb.no

Bus Nor-Way Bussekspress directly from Hamburg in Germany, Kristiansand and Bergen in Norway. From Oslo the Suleskar Express over the mountain. www.nbe.no

Boat Express catamaran from Bergen or Haugesund. International ferry services between Stavanger and Hirtshals, Denmark (www.colorline.com), and between Stavanger and Newcastle, UK (www.fjordline.no).
